Schwing America Passes the Torch to Integral dx on its Concrete Mixer Product Line

September of 2020 Integral dx acquired Schwing America's line of Concrete Mixer Trucks. Schwing was known for building the highest standard of Mixers and Integral dx is excited to carry forward this legacy. Our Schwing Legacy Concrete Mixer Trucks will be manufactured and assembled at our Prentice, Wisconsin facility. This facility has assembled several thousand different turnkey pieces of mobile equipment over the years, from purpose built forestry equipment to shipyard forklifts, tracked excavators to Schwing America Concrete Mixer Trucks. This facility has the expertise and the staff to fabricate and assemble your next Concrete Mixer Truck!

Meet the Integral dx Sales Team!

Since January our team has been crisscrossing the U.S. meeting with producers and getting our mixer information into their hands and talking mixer trucks. Please reach out to Jon, Reed or Mark if you want to schedule a visit or if you are looking for a quote on a mixer truck!
